Please provide the following information so we can personalize your quote for you.

Your School's Name: _____

School Street Address: _____

City: _____ State: _____ Zip Code: _____

Your Name/School Contact Person: _____

Phone #: _____ Email Address: _____

What happens next

After a quick review of the information you provided above, I'll submit your application to the solar company we have partnered with so they can get to work on your proposal. Your participation in this initiative qualifies you to receive your solar panel installations and activations, as well as your 55" interactive panel for monitoring, AND your membership into the Center for Solar Innovation where you can compare/share your experiences with other schools from across the nation. We will find you the best option for going solar at your school, with the goal of providing the entire system for the least amount of money as possible.

I'll meet with you to discuss the options, and if you choose to move forward, I'll run point and coordinate all aspects of the project on your behalf. In addition to the above information, please provide a digital copy of your last 12 months of electric utility bills. These bills are the greatest determinants when it comes to figuring out what you qualify for... so scan and send the copies as soon as you can to billn@emeinnovations.com
